SKILLS

- Graphic Design, Computer Graphics, 3D Modelling & Design, 3D Rigging, 3D Animation
- Scriptwriting
- Photography & Video Editing
- Communication & Presentations
- Creativity with Attention to Detail

PROFILE

Currently in my final year at Maynooth University doing a Bachelor of Arts in Media Studies and English. I am deeply immersed in the creative and technical side of 3D modelling and graphic design. I aspire to use everything I've gained through my qualifications to date. I have complemented this by partaking in extracurricular at-home studies. My goal is to secure a fulfilling career in 3D modelling and animation, contributing to an animated film, series, or game. Approaching the completion of my degree, I'm looking forward to opportunities that will allow me to pursue this in a professional setting.

WORK EXPERIENCE

AUTHOR/EDITOR/CREATIVE DESIGNER

onlinedesignteacher.com
